

Research Report

Monday 10/28/2013

Wei Wang

review of the issues to solve/What I needed to do

- Short: submit the draft to Impact 2014
- Medium: submit plos one by November
 - This needs making the cardiac code more efficient
- Long: think about what should I do to extend the current impact 2014 draft to aim for a CONFERENCE paper and for my proposal

What progress did I make

- Submitted IMPACT 2014
- Prepared the poster for SC'13. The contents were all from IMPACT 2014 submitted paper

The Plan

- Cardiac Project
 - Work on getting more speedups on MIC (with the help of VTune)
 - Work on modifying the text
 - Get a ready version by next Monday and send out
- Energy Profiling
 - Prepare required slides for SC'13, accompanying the poster.
 - Start looking into the set of PNNL benchmarks
